Comment Text :

1 I --> I am opposed to the nuclear dump being placed in Nevada. The science and engineering have been poorly done, proper procedures not followed. The entire project creates unnecessary risk to the population of So. Nevada, and populations located along the proposed routes of transport. Numerous scientists have stated Yucca mountain is not a safe location. Proponets of placing nuclear waste in Nevada often fought an adamant battle to prevent the waste from being placed in their home state. This in itself is testimony to the danger inherant in the storage and transport of the worlds most dangerous toxin.]
